

Schematic Drawing of FAIR Transfer Lines (November 2016)
 Schematische Darstellung der FAIR-Transferlinien (November 2016)

Schematic drawing of all FAIR transfer lines (transfer lines and accelerators with grey numbers or boxes will be realized as modules 4, 5 and 6) version beamlines-20161117-nom.pdf. Numbers adjacent to beamline names are database beamline segments and not completion dates. Green colored junctions indicate that the straight connection is open, when the dipole is switched off.
