

## Workshop CMW, CERN / GSI

Thursday, 25. Apr. 2013

09:00	Introduction to workshop	Wojtek, Udo
09:10	GSI/FAIR facility	Udo
09:20	Middleware aspects FAIR	Ludwig/Udo
09:30	GSI control system	Ludwig
09:45	CERN middleware overview	Wojtek
10:00	RDA - device access library (and CMW-admin GUI)	Wojtek
10:35	break	
10:50	RBAC – security and access control	Wojtek
11:05	CCDB and directory service	Wojtek
11:20	CMW proxy and gateways	Wojtek
11:35	New middleware and plans for 2013/2014	Wojtek
12:15	lunch	
12:45	Tour around GSI	
14:00	JMS - high level messaging	Felix
14:30	Distributed tracing and logging	Felix
14:55	Monitoring and diagnostics of middleware services	Felix
15:30	break	
15:45	JAPC overview and architecture	Felix
16:10	Common development, ideas on how, what, when, who	all
17:00	end	

Friday, 26. Apr. 2013

09:00	Build systems, testbed for Java and C/C++	Wojtek
09:25	Deployment and installation procedures	Felix
09:50	Common work packages and their ownership	all
10:10	Planning and priorities for 2013	all
10:30	break	
10:45	Discussions on technical and organisational aspects Collaboration: Formal aspects, arrangements	all
12:00	lunch	
12:30	open for additional discussions
